

**NEW DATE
CONFIRMED**

NEW DATE | Free gully erosion repair & pasture management field day

This event has been rescheduled to Thursday 29 April due to heavy rain and flooding in March

Landholders interested in learning about cost effective measures to control erosion and improve pasture condition on their properties are invited to attend Healthy Land and Water's **free** gully erosion and pasture management field day at Mulgowie.

Attendees will have the chance to inspect two recently completed small scale projects designed to control historic gully erosion. There will also be opportunities to discuss options and practical management practices to reduce erosion and maintain good pasture and land condition on their properties.

Topics will include:

- Managing and maintaining healthy pasture in cropping and grazing landscapes.
- Small scale, cost effective gully erosion control options.
- Using zero tillage techniques to establish pastures and crops.

For more information call or email Bruce Lord on 0427 013 284 or bruce.l@hlw.org.au or Corey Davis on 0468 821 414 or corey.d@hlw.org.au.

Thursday 29 April 2021

9am – 3pm

Mulgowie Pub, 106 Mulgowie Road | Attendees to meet at the Mulgowie Pub and travel to field sites from there
